GIFT TO PRESENT AND FUTURE GENERATIONS

Since the approval of the 1992 law, descendants of Italian-born individuals have been granted the right of Italian citizenship. The demand for dual citizenship is exponentially growing and the increasing amount of individuals are just beginning to grasp the huge benefits of holding a dual passport with Italy, which is not only citizenship of one country, but indeed due to the Schengen treaty, it is in fact citizenship of 28 European Union countries.

The benefit of being able to utilize health care, the educational system, job openings and all the other services offered by these European countries are significant. Above all else, this is a generational citizenship, which means it is automatically transferred to children who will respectively pass it to their own descendants. Thus, the citizenship remains or stays within the family for future generations, granting access to all the descendants, creating an open door to Italy and all European countries.

After two and a half years of operations, Luminosa Global is putting in place the 25 days selective dual citizenship program. This program is able to grant citizenship in less than a month on Italian soil. Clients who decide to engage with our program have their dream of Italian citizenship fulfilled within a very short amount of time.

In light of the extensive waiting period for an appointment with the consulate in the US, Canada and other countries, granting time for the consulate before and after the appointment is steadily increasing, making our program one of the most sought after and effective programs throughout Italy. Over the last 2 years of operations, we have helped hundreds of individuals successfully obtain citizenship, and we are excited about this new program. Such a program can open a world of opportunities for our clients and their descendants, and we are determined to provide a high quality, reasonably priced program that can assist clients from beginning to the end, bringing the program to completion within 25 days.

With the exponential growth in the demand for dual citizenship the wait for consulate appointments has increased significantly. Brazil, Argentina and Uruguay are experiencing a 5 year waiting period. In the U.S., We are reaching a typical waiting period of over 2 and a half years. In light of this processing time, the 25 days selective program is an excellent opportunity for those who would like to bypass the consulate and obtain citizenship within 3 weeks.

Moreover, the consulate is getting more and more demanding when it comes to required documentation. Many applicants have seen their application rejected due to a lack of records or other minor discrepancies. We are able to tackle those issues at the town level allowing the application to process quickly.

We are also implementing a 1 day processing for the physical passport via power of attorney. The passport will be picked up and mailed out to the applicant. Also included in our package, we resolve name discrepancy issues, legal assistance, as well as assistance when there is a lack of records. Bypassing the consulate will basically save anywhere from 4 to 5 years of time and also guarantee citizenship in light of many rejections.
